

REGIONAL PROFILE

Region 5

Region 5 is a part of Economic Development Region 5, which is located in the Northwest Planning Region.

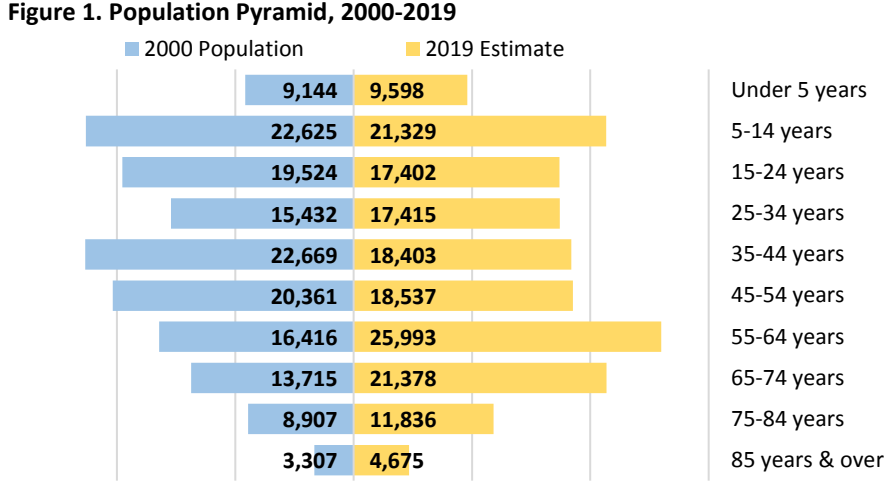

POPULATION CHARACTERISTICS

Region 5's population has increased so far this decade, ranking as the 7th fastest growing of the 13 economic development regions in the state from 2010 to 2019. It is now the 8th largest in the state. Region 5's population has an older median age than the state and a larger percentage of people aged 65 years and older. The population is aging, especially as the Baby Boom generation moves through the population pyramid (see Figure 1).

Current population:	166,566 people	Median Age:	44.2 years
Population change, 2010-2019	3,563 people 2.2% increase	state:	38.3 years

Region 5 enjoyed a natural increase - more births than deaths from 2010 to 2019, but also experienced net in-migration - meaning more people moved in than moved out. In addition to domestic in-migration, Region 5 welcomed net international in-migration - gaining new Minnesotans from foreign countries (see Table 2).

Compared to the state, Region 5 has a smaller percentage of foreign-born residents. From 2010 to 2018, Region 5 saw an increase in the number of foreign-born residents, though it was slower than the statewide increase.

REGIONAL PROFILE

Region 5

Region 5's population was becoming more racially diverse over time. Since 2000, the county's white population increased and the number of people of other races increased (see Table 4).

POPULATION PROJECTIONS

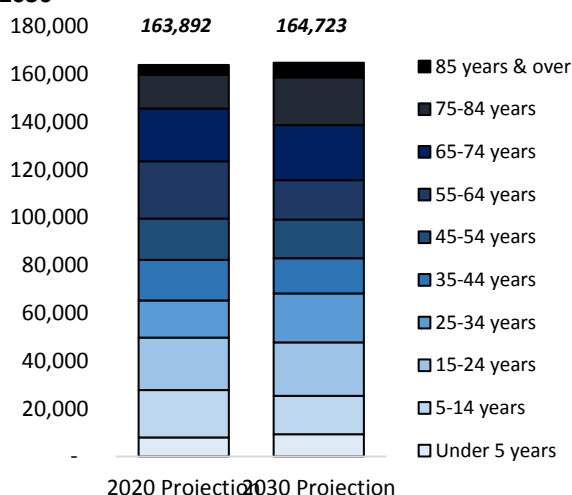

According to the Minnesota State Demographic Center, Region 5's population is expected to grow from 2020 to 2030, with a rate of change that is slower than the projected statewide growth rate (5.0%). In addition to the overall growth, the number of people aged 65 years and older is expected to increase over the next decade (see Figure 4 and Table 5).

EDUCATIONAL ATTAINMENT

Region 5 has a lower percentage of adults (18 years & over) with at least a high school diploma than the state (92.4%), and a lower percentage of people with at least some college experience. Region 5 also has a higher percentage of people with an Associate's degree and a lower percentage of people with a Bachelor's degree or higher.

LABOR FORCE TRENDS

The number of workers in Region 5 increased over the past year. Long term, Region 5's labor force expanded more slowly from 2004 to 2019, compared to a statewide growth rate of 8.0% (see Figure 6).

At 4.9%, Region 5 had a higher unemployment rate than the state in 2019. Region 5's unemployment rate increased compared to 4.4% in 2018, and was lower than the 10.1% rate posted in 2009. The number of unemployed workers actively seeking work in Region 5 increased over the past year, and is down compared to 2009.

Figure 7. Annual Change in Labor Force, 1990-2019

Source: DEED Local Area Unemployment Statistics (LAUS)

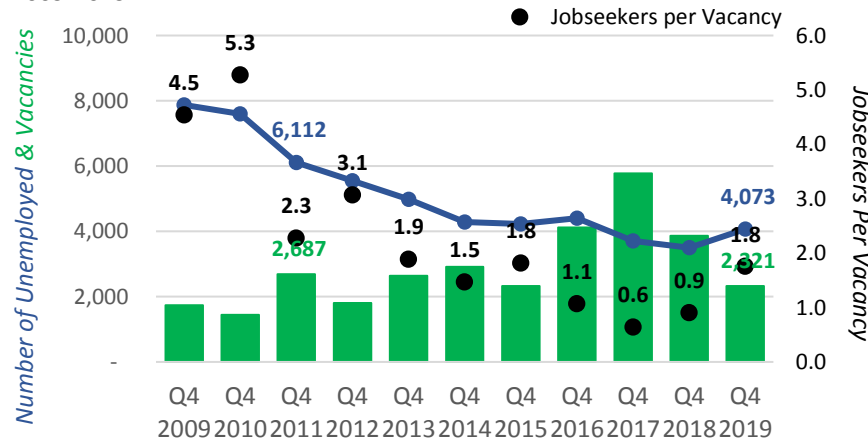

Labor force growth has slowed in recent years. After experiencing a net gain of workers from 1990 to 2000, Region 5 averaged an annual gain of new workers from 2000 to 2010, and most recently a gain of new workers since 2010 (see Figure 7). Moving forward, Region 5 is expected to see a labor force decline from 2020 to 2030 (see Table 6).

Region 5 is a part of Region 5, which includes Cass, Crow Wing, Morrison, Todd, and Wadena County. The labor market has grown extremely tight in recent years, dropping to a ratio of 1.8 jobseekers per vacancy during the 4th quarter of 2019 (see Figure 8).

LABOR FORCE CHARACTERISTICS

Region 5 had a lower labor force participation rate than the state. The labor force in Region 5 is less racially diverse than the state (where 85.5% of workers are white alone), but is becoming more diverse over time.
